

Name _____

Armed With Facts

What's an octopus's lucky number? Eight! The creatures have eight arms called tentacles. They use their tentacles to catch food. What are some other fun facts about the ocean dwellers? Use books or the Internet to find out. Then write a fact in each box below.

▶ GET WRITING Now that you're an octopus expert, put what you know to the test! Using the octopus facts you have found, write two paragraphs about the sea swimmers on a separate piece of paper.
