

Name: _____

Lifelines

Trace the ways in which you are connected to your community. Begin by writing your name in the center circle. In the four circles closest to the center, write the names of four people with whom you have a close relationship. In the three circles next to each of those four names, write the names of people in the community whom you know through that person. Write the story of how you met one of those people and tell how having that relationship affects your life.
